SECTION A - SUPPLEMENTAL INFORMATION

CONTRACT: W56HZV-04-C-0323
CONTRACTOR: OSHKOSH TRUCK CORPORATION
MODIFICATION: P00009
AMOUNT: UNCHANGED

1. The purpose of this modification is to change the Scope of Work (SOW), paragraph C.6 to read as follows:
- C.6. Installation of CPK and AC: Installation support for 271 HEMTT CPK/Air conditioning kits and 541 PLS CPK/Air Conditioning Kits in Iraq. The CPK installation instructions are furnished for each kit and will also be provided electronically.
2. As a result of this modification, the contract amount is neither increased nor decreased.
3. Other than provided herein, all other terms and conditions of the contract remain unchanged and in full force and effect.

SECTION C - DESCRIPTION/SPECIFICATIONS/WORK STATEMENT

Statement of Work

- C.1 There is an urgent requirement for air conditioning kits for CPK equipped HEMTTs, PLS and HET vehicles to improve operating conditions the vehicle. With the temperatures in theater soon to become oppressive, these kits have capability to provide relief for the vehicle operators.
- C.2 The contractor shall provide Air Conditioning Kits as follows:
- 901 HEMTT Air Conditioning Kit, p/n 2081560U
 Alternator Kit less Alternator p/n 2081530U
 Alternator p/n 2071710
- 775 PLS AC based on HEMTT AC p/n 3528349
- 500 HET AC p/n 3439127.
- C.3 PLS Air Conditioning
- C.3.1 Objective. The objective of this effort is to develop an air conditioning kit for the PLS which maximizes commonality with the existing HEMTT Air Conditioning kit p/n 2081560U.
- C.3.2 Performance. The PLS Air Conditioning kit shall provide a minimum 17,000 BTU/HR @ 90 degrees F Dry Bulb (current HEMTT air conditioning performance) and shall maximize the use of components already included in the HEMTT air conditioning kit, p/n 2081560U.
- C.4 Installation Configuration and Hardware.
- C.4.1 Each HEMTT and PLS AC kit, shall be configured as to be able to be installed in the field by the MOS's as specified in paragraph 3.2.3 of of ATPD 2304 ("Off-Road Family of Vehicles and Heavy Expanded Mobility Tactical Truck (HEMTT) Extended Service Program (ESP), Attachment 01, and shall be accomplished with the tools and resources available to Direct Support Level maintenance. The AC installation will be charged by a MOS52C to make it operational. All hardware necessary to install this air conditioning kit and to make it operational shall be part of the kit.
- C.4.2 Each HET AC kit, shall be configured as to be able to be installed in the field by the MOS's as specified in paragraph 3.2.3 of ATPD 2152C (Detail Purchase Description, The M1070 Truck Tractor for the Heavy Equipment Transporter System), Attachment 02, and shall be accomplished with the tools and resources available to Direct Support Level maintenance. The AC installation will be charged by a MOS52C to make it operational. All hardware necessary to install this air conditioning kit and to make it operational shall be part of the kit.
- C.5 RESERVED
- C.6 Installation of CPK and AC: Installation support for 271 HEMTT CPK/Air conditioning kits and 541 PLS CPK/Air Conditioning kits in Iraq. The CPK installation instructions are furnished with each kit and will also be provided electronically.
- C.6.1 The Contractor shall install Government Furnished CPK in accordance with the Government-Furnished installation instructions. Installation shall be conducted at a Contractor facility in Theater. The CPKs under this contract will come prepped for C4ISR and field expedited weapons stations, so the contractor will not have to allow labor for plasma cutting holes and cutting the roof panel.
- C.7 The weight of several components exceeds the recommended allowed lift for two people and mechanical aids will be necessary. The government will provide the use of two Forward Repair Systems (FRS). The Contractor shall provide any additional mechanical lift assistance necessary to conduct the installation of the kits.
- C.8 The Contractor shall provide all additional hand and power tools required for kit installation beyond those supplied in the FRS per Attachment #1 and installation related consumables identified in Attachment #2.
- C.9 The Contractor shall clean vehicles prior to installation of kits.
- C.10 Project leader shall have Secret Security Clearance to work in the SWA Theater. Each contractor employee operating a vehicle shall have a Commercial Drivers License or military equivalent to operate the equipment.
- C.11 The Contractor shall obtain upon all necessary visas and passports required for each employee.
- C.12 The Contractor shall be required to work a seven-day week, 24-hour day to meet mission requirements. This schedule is

subject to alteration based on equipment availability.

- C.13 The Contractor shall use a vehicle inspection checklist that details the pre and post kit installation condition of the vehicle. The vehicles will be in a minimum operational (1020 Standard) condition prior to Armor Kit Installation. The checklist shall be provided to the Performance Certifier upon completion of kit application.
- C.14 The contractor shall properly dispose of all replaced hardware in accordance with past procedures or the direction of the Army Materiel Command, Logistics Support Element (Forward), (AMC LSE Fwd) POC/COTR, LTC Jeffrey Carr, Maj Richard Lonardo or Jeffrey Parks, Performance Certifiers.
- C.15 The contractor shall have a quality assurance system that as a minimum documents inspection status and assures verifiable consistency in the level of the quality of all work performed for the Government.
- C.16 The contractor shall designate an on-site Project Leader who shall be the principal point of contact to the Government Performance Certifier. The Project Leader shall provide a monthly progress report indicating activities; expenditures and issues (see CDRL A002).
- C.17 The Government shall be responsible for transportation of all CPKs to the installation site in Kuwait.
- C.18 The contractor shall provide an After Action Report to the Government upon completion of this Scope of Work (see CDRL A003).
- C.19 The contractor shall provide the air conditioners to SWA Theater of Operation.
- C.20 The Government may provide facilities to include maintenance bays, water, electricity and compressed air capability.
- C.21 Additional Deployment Requirements (excludes local employees):
1. The contractor shall ensure that all personnel hired by or for the contractor will comply with all guidance, instructions, and general orders applicable to U.S. Armed Forces and DOD civilians as issued by the Theater Commander or his/her representative. This will include any and all guidance and instructions issued based upon the need to ensure mission accomplishment, force protection and safety, unless directed otherwise in this Scope of Work.
 2. The contractor or contractor employees shall report into the (AMC LSE Fwd) upon the contractors deployment in the area of operation (AOR) to facilitate the AMC LSE Fwd logistics integration function. Initial contact and coordination with the AMC LSE shall be conducted prior to deployment into the theater. Similar coordination and reporting to the AMC LSE shall occur prior to exiting the area of operation. Any additional coordination requirements with the AMC LSE shall be as defined by the Contracting Officer or the Performance Certifier. The POC is COL Olsen, Commander LSE SWA.
 3. If a contractor employee departs an area of operation without Government permission, the contractor shall ensure continued performance in accordance with the terms and conditions of the contract. If the contractor replaces an employee who departs without Government permission, the replacement is at contractor expense and must be complete within 72 hours, unless otherwise directed by the contracting officer
 4. While performing duties IAW the terms and conditions of the Contract, the Service Theater Commander will provide force protection to Contractor employees commensurate with that given to Service/Agency (e.g. Army, Navy) civilians in the operations area unless otherwise stated in the Contract.
 5. The Contractor shall ensure that all deploying employees receive all required mission training and successfully complete the training. The training shall take place at one of the CONUS Replacement Centers (CRC) locations (Ft. Benning, GA; Ft. Sill, OK, or Ft. Bliss, TX) in which the Government can obtain space. Duration is 40 hours. The Government would prefer individuals that have already gone through this training and are ready to deploy almost immediately.
 6. The Government will provide the Contractor employees with Chemical Defensive Equipment (CDE) and familiarization training commensurate with the training provided to Department of Defense civilian employees. This equipment will be provided at CRC for employees traveling from CONUS.
 7. The Contracting Officer or Performance Certifier will identify to the contractor all identification cards and tags required for deployment. These cards/tags shall be obtained at the CRC.
 8. The Government will require a medical screening at the CRC for FDA approved immunizations, which may include DNA sampling.
 9. The Government at its discretion may provide to Contractor employees deployed in the theater of operation on a cost reimbursable basis, emergency medical and dental care commensurate with the care provided to Department of Defense civilians deployed in the theater of operations. This is subject to the availability of such medical and dental care. The providing of such care does not include local nationals under normal circumstances.

10. Contractors accompanying the force are not authorized to wear military uniform, except for specific items required for safety and security. If required, the Government at its discretion may provide to the contractor all required military unique Organizational Clothing and Individual Equipment (OCIE).
11. The Contractor shall ensure that deployed employees possess the required civilian licenses to operate the equipment necessary to perform the contract in the theater of operations in accordance with the Scope of Work. Before operating any military owned or leased equipment, the Contractor employee shall provide proof of license (issued by an appropriate governmental authority) to the unit or agency issuing the equipment.
12. Upon arrival in the area of operations, contract employees will receive reception, staging, and onward movement and integration as directed by the contracting officer or Performance Certifier, the AMC LSE Fwd, or Theater Commander.
13. Living under field conditions, if applicable. The Government will provide the contract employees deployed in the theater of operations the equivalent field living conditions, subsistence, emergency medical and dental care, sanitary facilities, mail delivery, laundry service, and other available support afforded to government employees and military personnel in the theater of operations, unless otherwise specified in the Contract.
14. Morale, Welfare, Recreation: The government shall when approved by the installation or theater Commander and consistent with the authorization, terms and conditions specified elsewhere in the Contract, provide to contract employees deployed in the theater of operations, morale, welfare and recreation services commensurate with that provided to Department of Defense civilians and military personnel deployed in the theater of operations. Some of these services may be limited to U.S. Personnel only.
15. Next of Kin Notification: Before deployment, the contractor shall ensure that each contract employees completes a DD Form 93, Record of Emergency Data Card, and returns the completed form to the designated Government official and a copy to the contracting officer.
16. Upon notification to the contractor of redeployment, the contract employees are authorized to travel from the theater of operations to the designated CRC or individual redeployment site.
17. The contractor shall provide the contracting officer with documentation, annotated by the receiving Government official, of all clothing and returns.
- The Period of Performance for this effort will be from date of award through 30 September 2005.
- The Performance Certifier for this effort is any on of the following three individuals: LTC Jeffrey Carr, Major Richard Lonardo, and Jeffrey Parks. AMC-LSE FWD.
